"SQUEEZER" PLAYING CARDS,

Best quality, of the strongest material, and being highly finished on both sides, they slip readily when handled.

An important feature is that by reference to the "INDICATORS" in the corners all chance of making a mistake in the hand is avoided, as such "Indicators" show the Suit and Size. This allows of the hand being compressed into a very small space, and hence the name "SQUEEZERS." The "Indicators" are in addition to the ordinary pipes made to run both ways.

OLD GLENLIVET.

THIS WHISKY is a blend from some of the most noted Distilleries in Scotland, and is guaranteed to consist of PURE MALT SPIRIT only. It is thoroughly matured, very mellow, and entirely free from any smoky or objectionable flavour.

As large holders of the different kinds from which the Blend is made, we are in a position to allow the various Distillings to become thoroughly amalgamated before being bottled, an advantage which consumers of the article will readily appreciate.

TREACHER & Co. feel that it would be an insult to the intelligence of their Constituents to *put forward* Chemical Analysis and Medical Reports regarding this "Fine Old Spirit," as, however, gratifying these may be in themselves, they are obviously useless as affording a guarantee, that the Spirit offered, is the same as that commented upon.

TREACHER & Co. consider that the proper test of excellence of any article, consists in the demand for it, and judged by that standard, the fact, that, the sale of their "Fine Old Glenlivet" has increased more than tenfold during the past three years, and continues monthly to increase, may be accepted as conclusive proof of its character and value.

COMMERCIAL INTELLIGENCE.

TUESDAY EVENING, 8TH JULY, 1879.

Consols yesterday were unchanged at 98⅛, and French Rentes at 116¼, but Enfaced Rupee Paper is lower, Fours having receded from 77⅛ to 76⅞, Fours-and-a-half from 83¼ to 83⅛.

The London Money Market is still characterised by extreme ease, the rate of discount in the open market being still quoted at 1 per cent on 3 months' and 1½ per cent per annum on 6 months' Bank Bills.

Coffee and Cocoanut Oil remain unaltered in value, as also are Seeds, Linseed being reported firm, Rapeseed quiet. Reuter quotes Wheat on the spot 1s. to 2s., to arrive 3d. to 6d. per quarter higher.

Piece Goods in Manchester are still steady, and Cotton in Liverpool yesterday closed firm, Surats steady. The day's sales are put at 8,000 bales, of which 800 were Surats, and spot quotations are unchanged with the exception of Mid. Orleans, which is quoted 1-16d. per lb. higher at 7 1-16d. The New York market does not appear to have reopened after the holidays with any tendency to assist the hardening tendency in Liverpool both ready cotton and future's having declined. Yesterday's quotation for ready Mid. Uplands is 12¼ against 12 7-16 cents, and for October shipment 11·44 against 12·37 cents. per lb. for September shipment on Thursday last. The receipts of Cotton at the U. S. ports to date show the following comparisons :—

	1879.	1878.	1877
Last week	5,000	5,900	7,100
Three days'	3,000	1,800	1,700
Total since 1st Sept	4,415,500	4,208,000	3,922,900

Bar Silver in London, according to Reuter, has declined from 52d. to 51¾d. per oz., equivalent to about 1s. 7¾d. per rupee, and so far as we can learn this is confirmed by private advices.

Exchange opened weak with a partial decline of 1-16d. per rupee, and no change has taken place in the position during the day. Only one bank is a drawer at the top quotations, so that the position is not strong, but in all probability we shall see little change of importance now until the result of to-morrow's biddings for Council drafts is known. We quote :—

Bank Bills, on demand	1s. 7 13-16 to ¼d. per Rupee
Do. 6 months' sight...	1s. 8 1-16 to ⅛d.	,,
Credits, 3 ,, ,, ...	1s. 8 1-16d.	,,
Documents, 3 ,, ,, ...	1s. 8¼d.	,,
France 3 ,, ,, ...	2.12	,,

On Calcutta rates remain unchanged at 1-16 per cent. premium for demand and ¼ per cent discount for 60 days' sight.

Government Paper is quiet but fairly steady. Rates are unchanged and there is no apparent pressure to sell. We quote :—Fours, Rs. 93½; Fours-and-a-half, Rs. 99½.

Shares continue very dull with nothing doing either for speculation or investment. Bank of Bombays are an exception to the general rule, being firm at an advance of ½ per cent., the closing rate being Rs. 680. Land Companies are unaltered and the only change in Press shares is a further decline of Rs. 2½ in Mofussil. Spinning and Weaving Companies are dull. Bombay United are quoted Rs. 10 higher, but Dhurramsey are Rs. 10 and Madras United Rs. 5 per share lower. In our list of quotations we have now separated the Companies in course of liquidation which numbers out of a total of 37 quoted.

Cotton to-day has been quiet at unchanged prices, no purchases being reported except some small parcels for the local mills. The receipts for the two days have been 1,650 bales (of which 542 bales were transhipment cargo from Kurrachee), making 4,446 bales for the five days. Nominal quotations are :—

Good Ginned Broach	Rs. 237	per candy f. p.
Good Omra	,, 229	,,
F. G. F. do	,, 223	,,
G. F. do	,, 218	,,
Good Dholleras	225	,,
F. G. F. do	,, 223	,,
G. F. do	,, 218	,,
G. F. Ginned Dharwar	,, 215	,,
G. F. Compta	,, 206	,,

Seeds are dull and out of request. Linseed we quote at Rs. 6-14, Rapeseed at Rs. 7 per cwt.

Freights are extremely dull and the engagements making insignificant. For Liverpool by steam the nominal quotation to begin with was 22s. 6d., but the consignees of both steamers on the berth have since reduced their rates to 20s. at which some small business has been done. By sail we quote 20s. nominally. For Genoa and Marseilles by steamer at 32s. 6d. payable here some little business has been done, and the same rate is asked for Trieste and Venice, without however, so far as we can learn, leading to any fresh business. For Havre and London the s. s. Euphrates is looking any small lots offering at 27s. 6d. per ton.

Piece Goods may be called unchanged so far as regards the limited character of the business doing, but prices show a weaker tendency, and sellers evince more anxiety to effect clearances. Local Yarns continue dull and rates tend downwards.

Coals remain quiet and unchanged. There are no buyers to arrive at current rates, while with declining exchange and the high outward rates of freight ruling at home there are almost equally few sellers.

The Bombay Gazette

WEDNESDAY, JULY 9, 1879.

The telegrams conveying the intelligence regarding the death of the Prince Imperial only arrived in London on the evening previous to the departure of the mail received in Bombay yesterday, consequently the particulars to hand are as yet very meagre; they will be found in another column. It seems that a party of six troopers, apparently commanded by the Prince himself and accompanied by Lieutenant Carey of the 98th Regiment acting for the Intelligence Department, reconnoitred the ground for one march in front of General Wood's column. The party dismounted in a mealie field close by the Ityotosie river. The Prince had just given the order to remount, when they were suddenly fired upon by the Zulus who had crept up unawares. A general scamper ensued, in which everybody seems to have looked after himself; but when the party got together again, the Prince and two other troopers were found missing. According to one account the Prince's horse was restive, and he was unable to mount; but this part of the story seems to be wrapped up in mystery. At all events he had made his way on foot some distance from the original spot, the party which was despatched to search for the body having found it on the path marked with seventeen assegai wounds. We are thus able to guess at the charges upon which Lieutenant Carey is now to be tried by court martial. At present, of course, with the particulars before us, it is difficult to say whether that officer was to blame or not. The Prince having elected, and having been permitted, to go out reconnoitring in company with small bodies of cavalry not exceeding half a dozen in number, did so at a certain amount of risk. It seems to us as only natural that, being surprised as they were while mounting their horses, every one of that half dozen should have done his best to get out of range. In such cases rank does not count for much, and it becomes a question of each one for himself. Of course it would have been more satisfactory to learn that our soldiers had stood by the Prince until he had mounted; but, as we have said, having gone on a reconnoitring expedition he had to take that risk, and if to blame there is, it surely ought to be attached to those who permitted him to endanger his life at all. According to the statement made in the House of Commons, Lord Chelmsford was not aware that the Prince Imperial had been allowed to undertake the duties of commanding reconnoitring parties; but, at all events, that could only have been the case in accordance with the young man's own earnest request. Probably if Lieutenant Carey had been killed and the Prince had escaped, we should not have heard of any blame in the matter at all; and, although regretting to the full so miserable an ending to so promising a life, we think that in this case there is some risk of a wrong being done to a perhaps deserving British officer.

As to the war itself, we do not think that much dependence can be placed on rumours regarding any peace that has not its foundation on the defeat of King Cetewayo. If there is one thing that the war has unmistakably taught us it is this—that the Zulu army possessed the power of overrunning Natal whenever it pleased. That was the danger which led Sir Bartle Frere to embark in the war at all: we now know that it was no chimerical but a most real danger; and until it is removed the blood and the treasure that have already been expended will have been expended in vain. That seems to very clear, that it is impossible to imagine any Government or any statesman being content to close the struggle upon any other conditions than those which will provide for King Cetewayo being deprived of the power he now so undoubtedly possesses—the power of carrying slaughter and devastation through a British colony. Unless such be the undoubted result, the war will only have served to teach the King the measure of his strength; and to prove to him conclusively what before he was doubtful about, that South Africa—the moment our troops return to England—lies at his mercy. It would be madness to leave him in that knowledge and to be content with a few empty promises and hollow tokens of submission which he would be certain to throw to the winds the moment our backs were turned and the road to the settlements was clear. To end the war in that fashion would be to reverse the policy of centuries, upon which the British Empire has been built—the policy of inexorably carrying through whatever task has once been begun.

Our Simla correspondent offers what appears to us to be an excellent suggestion for the Army Commission to consider, though the preponderance of Bengal officers upon that Commission renders it doubtful that the proposal will be examined. We refer to the suggestion to equalise the native armies of the three Presidencies, so as to give each one of them a fair share of military employment and of military fame. It is manifestly unfair and injudicious that one Presidency should have a native army the size of two others; unfair, because the peoples of Southern and Western India are thereby denied all the good that can come to them directly or indirectly from the extra regiments that ought to be raised from among them; and injudicious, because were another military revolt to occur, the rebellious army might be found twice as strong as the other troops employed to suppress it. Ordinary Bengal troops are said by competent authorities to be no better, on the whole, than Bombay or Madras troops. The Bengal army possesses exceptional regiments, which stand towards the rest of that army as the Guards do towards the Line, but we are told that they are quite incapable of expansion. There is a limit to Goorkhas, Sikhs, and Irregular Horse, and it is reported that that limit has been touched already. The line regiments of the Bengal army, though containing many fine looking men, are said to be inferior in discipline and soldierly qualities to the Madras and Bombay sepoys, and also less able to endure hardships and changes of climate. This last consideration we will show to be of some importance further on. The Calcutta journals spoke highly of the Madras sepoys, and were fain to confess that they were agreeably surprised at the appearance of the two Madras native regiments recently quartered in Calcutta, despite the absurd dress of the men. Nor are military critics of the North and North-West wanting who say that the Madras and Bombay regiments can hold their own with the native line of Bengal. That being so, we are concerned to hear rumours of an impending reduction of the Madras and Bombay armies. In our opinion it would be much better to increase both at the expense of the Bengal native line. The Madras native army which, with the Bombay army, takes most of the military duty beyond the *kala panee*, has been reduced several times of recent years, and with the usual consequences of damaging the reputation for Government consistency, and of shaking the confidence of the people in enlistment. Another reduction on a large scale would certainly damp the military spirit of Southern and Western India in such a way as to render recruiting for the native army, already difficult, much more so, while such reduction would at the same time place the Bengal native army beyond the power of coercion at any time by the others. We do not intend to convey the impression that the Bengal native army is untrustworthy; but an army which has once revolted may do so again, and it is always well, in the instance of the native troops, to look at the situation from every possible point of view.

INDIAN FINANCE.

LONDON, JULY 7.

In the House of Commons last night Mr. Stanhope, Under-Secretary for India, in reply to a question, said the terms of the redemption of the 5 per cent. loan will be issued at the end of the year. The conditions will depend on the state of the Money Market. He also said that it was in contemplation by the Government to issue 3½ per cent. stock with the option to holders of 5 per cent. of conversion of the debt.

THE ARMY DISCIPLINE BILL.

LONDON, JULY 7.

In the House of Commons this evening Colonel Stanley (Secretary for War) announced that it had been decided to confine flogging in the army to offences punishable with death, thus virtually abolishing flogging altogether.

LONDON, JULY 8.

Another long and animated debate took place in the House of Commons last night relating to flogging in the Army, and resulting eventually in a split in the Liberal party. The Extreme Liberals urged the total abolition of flogging. Mr. Chamberlain (junior member for Birmingham) accused the British Government of a breach of faith. The Marquis of Hartington both dis agreed with, and disavowed the remarks that fell from, Mr. Chamberlain.

ACCOUNTS regarding the discussion in the German Parliament on the Silver Question are to hand by yesterday's mail. Herr von Delbruck brought forward a question of which notice had been given, asking whether the Government contemplated any modification in the March laws establishing a gold standard. Prince Bismarck, in reply, said he did not know the views of the Federal Governments upon the question; but, speaking for himself personally, he thought it inexpedient to commit himself to an expression of opinion upon a subject of such moment. All that had been done was to order the suspension of the silver sales pending a rise in price.

THE Town Council, at their meeting held yesterday, resolved to recommend the Corporation to sanction an extra grant of Rs. 4,414 from the surplus cash balance for laying a six-inch water main from Bhuleshvar Road along the Girgaon Back Road to Jugonnath Sadashew Street, situated nearly opposite the bungalow of the Hon'ble Morarjee Goculdas. The Council resumed the consideration of Mr. Muncherjee N. Banajee's notice of motion that "the Municipal Commissioner be requested to assess separately, for the purposes of Municipal revenue, all lands let out by their owners on lease." After a lengthy discussion, on which some light was thrown by an important letter received from Mr. Byramjee Jeejeebhoy, C. S. I., the Council unanimously resolved to take the opinion of counsel as to whether or not the owner who leases his ground to a tenant should be taxed separately for Municipal purposes distinctly from the tenant who builds a house on such rented land; or if the two interests are to be taxed together, whether the incomes of both the landlord and the tenant are to be added together for the purposes of Municipal taxation. The Chairman made a statement regarding the income and expenditure of the Municipal fund for the last six months, which was considered very satisfactory.

ACCORDING to a rumour, to which some credence is attached, one of the reforms to be made in the Indian army will result in the commands of native regiments becoming five-year appointments.

THE telegraph laying expedition is not expected to start till after Major Cavagnari is settled at his new Residency. It will be desirable in the first instance to get arrangements made, through the Amir, for the protection of the line, which crosses country where the tribes would naturally be disposed to mischief.

On the authority of the *Pall Mall Gazette* the Committee which have been charged to inquire into the present expenditure and organisation of the Indian army will be composed as follows:—Major General Lumsden, Adjutant-General in India; Major-General Roberts; Colonel Baker, C. B., Military Secretary to the Viceroy; Colonel MacGregor, Deputy Quarter-Master-General; Major Newmarch, Mr. Bernard, and lastly delegates of the Governors of Madras and Bombay. Sir Ashley Eden, Lieutenant Governor of Bengal, has been appointed President of the Committee, and Captain Collen, of the Government Secretariat, will act as secretary.

THE *London Gazette* just to hand states that it is her Majesty's intention to confer the decoration of the Victoria Cross on Captain and Brevet Lieutenant-Colonel Redvers H. Buller, C.B., 60th Rifles; Major William K. Lees, 1st Battalion 13th Regiment; Surgeon-Major James Henry Reynolds, Army Medical Department; Lieutenant Edward S. Browne, 1st Battalion 24th Regiment; and Private Wassall, 80th Regiment, for their gallant conduct during the recent operations in South Africa.

WE publish this morning numerous telegrams from the seat of war, but they mostly treat of reconnaissances and preparations for an advance. General Newdigate's division crossed the Buffalo River on the 29th of May, and reached Koppe Alleine the same evening. A permanent camp was to be formed there, and a further advance was expected to be made on the 2nd of June. Usitwongua, another envoy from Cetewayo, had reached Fort Chelmsford, and John Dunn had gone to confer with him. The Zulu King's sincerity in his peace overtures was still distrusted. It was stated that he had sent messengers to Delagoa Bay to obtain ammunition, but their requests were refused. A disaster had occurred to our colonial forces in Basutoland. At half-past two on the morning of May 29 a troop of Yeomanry, belonging to the forces investing the Morosis Mountain, was surprised by the Basutos, who drove in the sentries, and killed six men in their tents, and dangerously wounded fifteen others. The enemy were pursued and heavy loss inflicted upon them.

IT has of late been very clearly shown that by chambering a gun, or, in other words, by enlarging the portion of bore containing the charge, and by increasing the charge of powder, a much higher velocity can be imparted to the projectile, and consequently the power of the gun greatly augmented, without increasing the strain on the piece. A 9-inch gun, for instance, has been recently constructed, weighing only 4 tons, but firing a charge of 36 lb. of powder, with a projectile of 380 lb., which has proved itself to be nearly as powerful a weapon as the 9-inch service gun, weighing 12 tons and firing 70 lb. of powder. In a paper published in the "Proceedings of the Royal Engineer Institute," it is stated that other guns designed on the same principle will shortly be constructed; and it is anticipated that one of these new pieces with a bore of 10-inch diameter and of about 15 tons weight, will be able to take the place of the 12½-inch or 38-ton gun as an armour piercing weapon in our forts. In order, however, that all the increase of power derivable from the adoption of this principle of chambering may be obtained, it is also necessary to materially increase the length of the bore to allow of the whole of the increased charge of powder being consumed in it; and this, the writer of the paper referred to suggests, furnishes another argument in favour of the substitution of breech for muzzle loading ordnance. A 10-inch gun on the new system, for instance, will be 3 feet 6 inches longer than the service 12½-inch or 38-ton gun; and the extreme difficulty, if not impossibility, of loading so long a piece at the muzzle would preclude its being used in our casemates without crippling its efficiency by shortening the bore.

THE case of the "Empress *versus* Ganu," in which the defendant appealed against a decision of the Joint Magistrate at Calicut, fining him Rs. 1,000 for contempt of court, has been settled by Mr. H. Wigram, the Sessions Judge of the District, who has modified the sentence to a fine of Rs. 100.

THE road beyond Lundi Kotal and on to Daka is reported to be very much infested by robbers at present.

IT has been ascertained that the marauders who murdered Dr. Smyth were a party of Wallassi Zaimushts, eight in number.

THE experimental cultivation of cinchona in the highland taluq of the North Arcot district is to be tried at the suggestion of His Grace the Governor. The Conservator of Forests has been instructed to forward to Mr. Sheffield, the Deputy Conservator, a supply of seed and two wardian cases of plants.

THE withdrawal of fire arms from the ryots is already, we hear, occasioning damage and loss to crops. One gun per hamlet is not a sufficient provision against the ravages in the field of such animals as wild pigs and sambar. The Hill ryots purpose petitioning His Grace the Governor to relax the provisions of the Arms Law, or rather the Magisterial interpretations of its provisions.

A BRANCH meeting of the Western India Rifle Association will be held at Bhusaval, Khandesh, on the same days that the meeting is fixed to take place at Poona, viz., 20th, 21st, 22nd, and 23rd August. Captain H. T. Ferguson, G. I. P. R. Vols., has been appointed Local Secretary, and it is anticipated that there will be a number of competitors at this station, which is conveniently situated, and has a range of 1,000 yards.

MR. HENRY HUMPHREYS, late Postmaster of Nagapatam, has been convicted and sentenced to nine months' rigorous imprisonment, and to pay a fine of Rs. 500, for having committed criminal breach of trust by a public servant in respect of the sum of Rs. 400. The accused was for a long time employed in the General Post Office, Madras, previous to his appointment in the mofussil.

MR. BEGOOPUTROW KRISTNA, a railway contractor, has completed two buildings at the Dhond Railway station, one a medical dispensary, and the other a library, the cost of which is about Rs. 5,000, and about Rs. 50 per month has been allowed for the purpose of meeting the expenses of the medical dispensary. A relief house has also been built by the same gentleman, where about one hundred infirm and helpless persons are fed daily; each male adult being provided with a cumbolie, bundee and dhoter; a female, garree and cholee, and child, a dhoter and bundee.

COMMENTING upon the recent outbreak of cholera which has occurred in the Kurrachee Jail, the *Beacon* says:—We believe it was intended to remove all sick prisoners to the Mooch, where they were to be quartered under canvas. The intention has been abandoned. The sanitary arrangements of the Jail are most perfect and unexceptionable, and the surprise felt is at cholera making its appearance in a penitentiary which for cleanliness is unequalled by any other in this Presidency. If want of sanitation or dirt engenders cholera, as they are popularly said and believed to do, what becomes of such a theory when applied to the recent outbreak in the Kurrachee Jail? Four cases out of eleven terminated, we learn, fatally.

THE Amir Yakub Khan has appointed Sirdar Mahomed Hussain Khan, son of Wazir Futteh Khan, to the Governorship of Jallalabad. The Sirdar bears a high character for justice, kindliness, and toleration, and it seems that he is really popular in his new post. It is well, however, that he is a man of exceptional firmness also—for it is rumoured that jealousies between the Hindus and Mussulmans of the city have been unusually apparent of late. Not many days ago the Kazi of Jallalabad issued an order to the effect that Hindus must wear their head-dress of a distinctive colour. Some disturbance between the Hindus and Mahomedans was the result. The Sirdar, however, has punished the Mahomedan rioters, reprimanded the Kazi, and permitted the Hindus to consult their individual tastes in the matter of colour.

AT a recent meeting of the Commissioners of the Madras Municipality there was an important discussion in connection with the collection of the Imperial licence-tax. Mr. Barrow, the President, explained that last year the gross collections amounted to Rs. 74,000; net Rs. 68,127; Government allowed 10 per cent. in 1878 for collecting; this year only allowing 7 per cent. In 1878 the cost of the collection was 12 per cent. It is estimated that in future years it will be 9. A very large sum will have to be contributed from the local funds to make up the shortcoming in the estimate for the licence-tax. It is found by experience that they could not collect more than 60 to 60 per cent; and if Government, as was the case last year, again serve the Municipality with notice to pay Rs. 1,24,000, whereas the net collections only amount to Rs. 64,000 the Municipality will stand to lose Rs. 64,000. It was resolved to petition Government to relieve the Municipality of the duty of licence-tax collection and conduct altogether.

A REPORT of the Lahore Central Museum has been published, the contents of which ought to be read with pleasure; for it shows that institution to be in a very flourishing condition. There were over 162,500 native visitors to the Museum during the year, and their behaviour even on holidays was generally good. There was only one theft during the twelve months, that of a bamboo tube worth two annas, and this was committed on a Mohurrum day. The Buddhist sculptures in the Museum are being photographed, much of the work being done in the Lahore School of Art, with the excellent idea of teaching the pupils photography. The Buddhist sculptures are also being moulded, and casts are taken. The Lieutenant-Governor has ordered that the photographs and casts shall be offered for sale, by which means a welcome addition will doubtless be made to the income of the Museum. Many objects of interest have been given during the year; while amongst those which have been purchased is a string of imitation pearls manufactured at Paris.

THE Suddar Court of Sind has dismissed with costs, the appeal of Mr. Thawurdass Khemchand, a merchant of Kurrachee, against the decision of the District Court in the suit brought against him for the recovery of damages of the amount of Rs. 27,000—the value of plaintiffs share of the ship Fatta Mana which was wrecked in July, 1871. In the course of his analysis of the arguments of counsel, Judge Baker paid a tribute to the shrewdness of Mr. Tolaram Suchanand who represented Mr. Thawurdass originally in the lower Court. The learned Judge's remarks, it is reported, on being telegraphed to Hyderabad, gladdened the hearts of Mr. Tolaram's numerous "friends and admirers," who chanted a chorus of jubilation, and carried that gentleman through the city in triumph on their shoulders. Mr. Thawurdass intends appealing now to the Privy Council through his solicitor, Mr. Leggett.

THE annual report of the Madras Female Normal School has been published. During the year there were in the "Normal class" twenty pupils, viz., six East Indians, eight Native Christians, and 6 caste girls, and in the "Practising School" sixty-six pupils against sixteen and forty-nine, respectively, in 1877-78. For the Teachers' certificate examination five students from the Normal class passed in the first grade, and one in the second grade; from the Practising school five passed the first grade and three the second grade. These results must be considered highly satisfactory. The Government approve a suggestion of the Inspector of Schools that ability to read, write, and speak Tamil or Telugu as well as English should be a condition for the grant of a stipendiary scholarship, and that those unable to fulfil the condition should receive free scholarships. The Government also agree with the Inspector of Schools that it is important to keep chiefly in view the original object of the school, and not allow it to be obscured by other objects, however desirable they may in themselves be. This remark has reference to the fact that besides the regular work of the school, eleven girls of the Military Asylum attend the method and criticism lessons once a week, and a similar arrangement is about to be carried out in connexion with the Civil Asylum.

GOVERNMENT have ruled that officers in Kurram, at Thull, and at stations north of Jacobabad, may have 90 (instead of 60) days' privilege leave.

THE New High Commissioner of Cyprus, General Biddulph, has left Constantinople without coming to an arrangement with the Porte as to the amount of the surplus revenue of Cyprus to be paid to England.

MAJOR-GENERAL JOHN RICHARDSON AULDJO, late of the Bengal Staff Corps, died at Myrtlebank, Scotland, on the 14th ultimo, in his fifty-fifth year. He obtained his first commission in 1840, and served in the Sutlej campaign of 1845-46, and in the Punjab campaign of 1848-49, including the battles of Sadoolapore, Chillianwallah, and Gujerat, for which he received a medal, with two clasps. He served also during the Indian Mutiny, for which he received a medal.

WHILE the troops were returning from a review which had been held by the King of Spain, an awkward accident happened. The contents of two artillery ammunition waggons exploded, an artillery man being killed and several persons wounded.

BOMBAY.

POSTAL NOTICE.—Mails for Singapore and Hongkong, per extra steamer Clan Alpine, will be closed at the General Post Office to-day at 10 a. m.

THERE will be tent-pegging on the *maidan* opposite the Gymkhana to-morrow evening, weather permitting. Seats will be provided for ladies and members of the Gymkhana. Spears can be obtained at the pavilion.

THE S.S. India, Anchor Line of steamers, which left Rosock on Sunday, 22nd ultimo, made the passage across to Aden against the full force of the S.W. monsoon in eight days. It is the fastest passage that has ever been made during the monsoon season by any steamer, we believe. The weather she experienced was very severe. She sailed the same day for Liverpool.

CAUSING OBSTRUCTION TO THE TRAMWAY LINE.—Yesterday, a Mahomedan named Hussein Ebramjee, was fined Rs. 5 by Mr. Cooper, for placing a stone on the tramway rails.

HOUSE TRESPASS.—A Hindu, named Hunmunta Manajee, was yesterday fined Rs. 10, or in default fourteen days' rigorous imprisonment by Mr. W Webb, for trespassing in the dwelling house of Motiram Tooljaram.

CRIMINAL BREACH OF TRUST.—A Hindu woman, named Gunga, was yesterday convicted by Mr. W. Webb of criminal breach of trust in respect of a gold neck ornament, valued Rs. 18. She was sentenced to three months' rigorous imprisonment.

SUSPICIOUS CHARACTERS.—Two noted characters, named Gabboo Mooljee and Asoom Kills, were yesterday each sentenced to two months' rigorous imprisonment by Mr. Nana Morojee, for being found loitering in a public place, and failing to render a satisfactory account of themselves.

A DISHONEST SERVANT.—Suddoo Bapoo, a servant in the employ of Captain J. Dixon, was yesterday convicted by Mr. C. P. Cooper of criminal breach of trust in respect of currency notes to the value of Rs. 600, the property of prisoner's master. He was sentenced to one month's rigorous imprisonment.

CHEATING.—A Parsi, named Ardaseer Merwanjee *alias* Shaik Abdool Hoosein, was yesterday convicted by Mr. C. P. Cooper of dishonestly causing two Hindu shopkeepers, named Narayan Jadowjee and Luckmidas Trijee, to deliver to him sundry articles of the value of Rs. 1,110. He was sentenced to one year's rigorous imprisonment.

THE undermentioned officers have permission to appear before the Civil and Military Examination Committee in the new Secretariat to-morrow, the 10th inst., for examination in native languages:—Hindustani.—Lieut. W. S. Jones, 28th N. I.; Lieut. H. W. Seymour, 16th N. I., Lieut. C. Stuart, 2nd P. Cavalry, Sub-Lieut. A. F. Mockler, 35th Madras N. I., Lieut. W. N. Justice, 21st N. I., and Lieut. T. A. Gavin, 15th Hussars. Persian.—Lieut. J. S. King, 2nd (P. W. O.) Grenadiers.

HIGH COURT DECREES.

AT the High Court yesterday, the following cases were heard before Mr. Justice Bayley:—

TRICUM PURSHOTUM VS. MESSERBAL.

Mr. Macpherson, instructed by Messrs. Rimington, Hore, and Conroy, on behalf of the plaintiff, asked for a month's postponement on the ground that his client was unavoidably absent from Bombay, and that he had received no proper instructions. There was no opposition, and the application was granted.

SEWDOOMRAMGOPAL AND OTHERS VS. SHAMJEE VEERJEE AND ANOTHER.

Mr. Jardine, instructed by Messrs. Rimington, Hore, and Conroy, on behalf of the plaintiffs, applied for a fortnight's postponement on the ground that it was found necessary to make the Offical Assignee a party defendant. The application was granted.

The following cases were disposed of by Sir Charles Sargent:—

GUNGABAI VS. KHATAO NATHU AND OTHERS.

Mr. Mayhew, instructed by Mr. Turner, appeared for the plaintiff; and Mr. Lang, instructed by Messrs. Bhalshanker and Dinshaw, for the defendant. Mr. Lang said a translation was not ready; and as the case was likely to take half a day, he asked that it should stand after the part heard case. Mr. Mayhew said, as his Lordship looked at the plaint, he would find that the case would not take two minutes. After some discussion, the case was transferred to the long causes list; costs to be costs in the cause.

PURMANANDAS JEEVUNDAS VS. KESSOWJEE NAIK.

This was a suit to recover Rs. 1,05,000 from the defendant who had stood guarantee for his son in respect of a mortgage of shares with the plaintiff. Mr. Jardine (for Mr. Macpherson), instructed by Messrs. Chalk and Walker, appeared for the plaintiff.

Mr. Lang, instructed by Messrs. Hearn, Cleveland, and Little for the defendant, said it was never intended that this case should come on as a short cause. On the 17th ult. the plaintiff was allowed to withdraw his suit and to file a fresh suit; and it had been put down as a short cause. The same questions would arise at the hearing as in the other case; and the court would have to consider at least three important questions. After some discussion, the case was transferred to the long causes list. Plaintiff to pay the defendant's costs of the day.

SUMMARY OF ENGLISH NEWS.

(FROM 13TH TO THE 20TH JUNE INCLUSIVE.)

THE Prince of Wales visited Norwich on Tuesday and laid the foundation-stone of a new hospital. The next day the Prince inspected the Norfolk Artillery Militia and the local Artillery and Rifle Volunteer Corps at Yarmouth.

THE Duke of Edinburgh arrived in London on Tuesday from Berlin.

THE Duke and Duchess of Connaught went to Aldershot on Saturday, where the Duke has resumed command of the 1st Battalion Rifle Brigade.

CABINET Councils were held on Saturday and yesterday, at which all the Ministers were present.

THE House of Lords re-assembled on Friday, but the sitting was brief and the business transacted purely formal. On Tuesday, the Racecourses (Metropolis) Bill was passed through Committee. Lord Salisbury, in reply to a question, said there had been an irregularity in cutting off the beards of two Greek priests imprisoned at Famagusta in Cyprus. Last night Lord Northbrook, in the course of a long speech approved the reduction of expenditure in India, but objected to the removal by the Home Government of the import duties upon cotton goods. Lord Cranbrook vindicated the action of the Government, which was advisedly criticised by Lord Lawrence, to whom Lord Salisbury replied.

IN the House of Commons, on Friday night, Sir Stanley stated that it had been decided to allow Militia the First Class Army Reserve to volunteer to rejoin the colours. Mr. Baillie-Cochrane called attention to the great increase of local rates in the metropolis, and the inadequate control exercised over the vestries. After considerable discussion Mr. Cross said the subject would be fully considered. Mr. Baxter then addressed the House upon the subject of requiring the Government to compel railway companies to adopt continuous brakes, but Lord Sandon was of opinion that it would be imprudent for the Government to undertake to determine the particular kind of brake to be used. On Monday, Mr. Bourke, replying to Mr. Otway, said the Government did not consider it expedient at present to produce further papers relating to Egyptian affairs. The House then went into Committee upon the Army Estimates, and the discussion was protracted by the minute criticisms of several Irish members. Eventually the votes for the Militia, the Yeomanry, and the Volunteer forces were agreed to. On Tuesday, at the early sitting the flogging clause of the Army Discipline Bill was again discussed and ultimately an amendment to reduce the *maximum* of lashes from 50 to 25 was assented to by the Government. At the evening sitting Sir W. Harcourt made a long speech in condemnation of the conduct of the Secretary of State for India and the Viceroy in overruling the decision of the Councils. Mr. E. Stanhope replied that the present Government had only followed the practice of their predecessors. At Wednesday's sitting, Mr. Delahunty's Bill to abolish £1 notes in Ireland was rejected, and Sir A. Gordon's Bill to exempt from duty guns used for destroying ground game for the remain was "talked out." Last night the discussion in Committee of the Army Discipline Bill was resumed, and occupied nearly the entire sitting.

EARL DERBY presided at the dinner of the Lancashire Farmers' Club on Saturday, and expressed a belief that prospects were brightening, and that the concurrence of bad harvests with commercial depression and wars and undertakings might be regarded as not likely to recur.

MR. F. A. Bosanquet, of the Oxford Circuit, has been appointed Recorder of Worcester, in succession to the late Mr. Streeten.

MR. A. L. Smith, of the South-Eastern Circuit, has been appointed to the post of Junior Counsel to the Treasury, in succession to Mr. Bowen, now a Judge of the Queen's Bench.

AT the annual meeting, held on Tuesday, of the National Society, the report showed that the number of pupils in Church schools in England and Wales amounted last year to £613,000, and the average attendance of children had risen to 1,368,000, being an increase on the preceding year of 95,000.

ABOUT 2,000 colliers have struck in the Tamworth district against a reduction of wages.

MR. Fisher, County Court Judge, to whom the question had been referred as arbitrator, has decided in favour of the operative painters of Bristol who resisted a reduction of wages, and the employers have accepted the decision.

A sculling race for the championship was rowed on Monday, on the Tyne, by Edward Hanlan, of Canada, and William Elliott, of the Tyne. The former was successful, winning easily.

A steam boiler burst, on Monday, at a paper-mill at Kersley, near Bolton. One man was killed and five others seriously injured.

Robert Thornsley, a pawnbroker at Gorton, has been committed for trial upon a charge of murdering his wife by cutting her throat.

Upon the Stock Exchange there have not been important fluctuations. Consols at one time went below 97, but have since improved to 97¼. The railway stocks were for a greater part of the week dull, but have recovered a little, only to close with a dull tone all round. Prices of Egyptian stocks are pretty well maintained by speculation; but there has otherwise been a flat tendency among foreign bonds.

Further intelligence has been received from Cape Town up to May 27. Lord Chelmsford reports that the commissariat arrangements would be sufficiently complete to enable his force to advance on June 1. Sir Bartle Frere was about to return to Cape Town.

THE British troops have now quitted the Afghan territory, except a small force at Daka, which will also shortly be withdrawn. Unfortunately, there has been considerable sickness, caused by the march during the hot season, and the 10th Hussars and the Rifle Brigade have especially suffered.

THE Amir Yakub Khan has left Gandamak for Kabul, and Major Cavagnari, after a conference with the Viceroy at Simla, will proceed to the Afghan capital.

IN the French Senate, on Saturday, the subject of allowing the sittings of the Chambers to be held in Paris was debated, and upon a division the proposal was carried by 149 against 130. In the Chamber of Deputies there were very disorderly scenes on Monday and Tuesday, M. Paul de Cassagnac in his opposition to the Government University Education Bill adducing 4 vote of censure, and M. Gambetta on the succeeding day being reproached with the suppression of passages in the official report deserving further condemnation.

A Ministerial crisis at Constantinople has been impending from the expected recall of Mahmond Nedim Pasha and the consequent fall of Khafreddin Pasha; but the latest reports indicate a continuance in power of the present Ministry.

ALL the Great Powers having protested against Khedive's recent proceedings, the Viceroy has yielded to the pressure applied, and it is announced that he has undertaken that the European bondholders shall receive full payment of interest, and has cancelled his decree of April 22. It is believed that the French Government has urged upon the Khedive the necessity of retiring from the Viceroyalty.

SOME fresh stringent regulations for the control and conduct of students in Russian public schools have been issued. A tax-receiver's office at Kherson has been robbed of a million and a half of roubles, the thieves having undermined the place and effected an entrance into the cellars.

ALL mention of Mount Etna has subsided, but it has been followed by earthquake, which have caused great loss of life and destruction of property. There have been renewed anti-tax riots at Catalabriano, and several lives have been lost, the military having fired upon the crowds.

A rupture between the Argentine Confederation and Chili is regarded as imminent, the former State having repudiated the treaty settling the Patagonian frontier.

THE BOMBAY, BARODA, AND CENTRAL INDIA RAILWAY.

THE forty-seventh half-yearly general meeting of the shareholders of the Bombay, Baroda, and Central India Railway was held on the 20th ult., at the City Terminus, Lieutenant-Colonel P. P. Pierce, R.E. (chairman) presiding. The chairman, in moving the adoption of the report, said that the half-year dealt with in the report was the less favourable of the two, because it included those months in which the monsoon prevailed. Their prosperity would also have been affected by the liquidations which had occurred during the past year, and the failure of the crops. The net decrease in the earnings was £45,914 compared with 1877, but the main cause of this was the diminished receipt for rolling stock loaned or transferred with loads to other lines, due to the cessation of famine pressure. Also the reduction in the third-class fares, the third-class passengers had largely increased in number. The progress made with the Nerbudda Bridge was most satisfactory, and the directors looked for the completion of the State line to connect Ahmedabad with the north-west, via Ajmere, by the end of next year, and from this source they expected a surplus profit. Already the State line running from Delhi to Ajmere was unequal to the demand upon it. Colonel John Pitt Kennedy, their consulting engineer and one of the company's directors, had been obliged to resign his appointment owing to failing health, and the board proposed, in view of the high services Colonel Kennedy had rendered the concern, the grant of £1,000 should be made to him. He was glad to be able to say, in conclusion, that there was a mild revival of trade. The returns for the period beginning on the 1st of January and ending on the 17th of May this year amounted to £330,511, as compared with £299,618 for the same period last year, and £37,550 in 1877, the last being the best year they had had. The motion for the adoption of the report was seconded by Mr. William Hartridge, deputy-chairman, and carried. Viscount Gort and Mr. W. Hartridge, the retiring directors, were re-elected, and Mr. Francis Cooper, the auditor, Colonel Evans, before the proposal was terminated, retired specially to the valuable aid afforded to the line by Colonel Kennedy. A vote of thanks to the chairman and directors was then passed.

THE ZULU WAR.

MESSAGE FROM LORD CHELMSFORD.

ANOTHER BRITISH SURPRISE.

FATAL CONFLICT WITH BASUTOS.

Standard's Special Correspondent with General Wood.

MUNDHLA HILL, May 31.

GENERAL WOOD has learned from a Zulu spy, who has been to Ulundi and left on the 23nd inst., that Cetywayo has solemnly sworn before the people that he will never accept our terms while he has a single man left capable of bearing arms.

The spy reports that at the time that he was there, there were no regiments assembled at Ulundi, but that the order for all the forces to gather there was daily expected. Most of the Zulu regiments are mustered at their respective kraals, and their orders at present are that they are to oppose our progress by attacking our columns on the march, but that they are not on any account to attempt an attack upon our entrenched positions.

The Zulus are in ignorance of any attempt at negotiation upon the part of Cetywayo, and regard him as being determined to fight to the death. Nyamana and seven other chiefs were at Ulundi. Dabulamanzi was not there nor was he expected there, but the spy did not hear any reports of his death.

Upon his way back from Ulundi the spy saw scouts on the hills watching for the advance of the column across the Tugela to Mayeni.

The 80th Regiment, 380 men strong, with four Gatling guns, has joined us, and we move a stage farther into Zululand to-morrow. The transport difficulties have been lightened by the simple expedient of putting the horses upon half rations, a step which diminishes the amount of forage to be carried, but will not increase the efficiency of the horses.

UMVAYANA CAMP, June 2.

A terrible shock was given to the whole force yesterday by the news that the Prince Imperial had been killed. At first the news was hardly credited, but it turned out to be too true.

The Prince had gone out scouting with Bettington's Horse—a thing he had been out with three previous occasions without the exchange of a shot with the enemy.

The first news of this lamentable event was received by General Wood, who was out on a reconnaissance rather late in the afternoon, when at a point some six miles from camp he met Captain Carey and four men of Bettington's Horse riding at the top of their speed.

They reported that some five miles further on they had off-saddled for an hour close to a mealie field. They had seen no Zulus whatever, and had no apprehension of an attack.

They rested for an hour and then saddled up again. Some of them were just mounting when a party of Zulus leaped out of the tall hard by, fired a volley, and rushed forward with the assegais.

Everyone set spurs to his horse and dashed off out of fire. When they met again they found that the Prince Imperial, two troopers of Bettington's Horse, and a Kaffir were missing.

By the aid of his glasses General Wood saw a party of some twenty or thirty of the enemy retiring across a hill some seven miles distant. They were driving three horses before them.

The greatest sorrow was felt on receipt of the sad news, for the Prince, by his unaffected manner and desire to be friendly with every one, had made himself very popular.

This morning Colonel Buller's Horse have started to search for his body.

(Standard's Special Correspondent with General Newdigate.)

ITELEZI HILL, JUNE 1.

A most serious and unfortunate occurrence has taken place to-day. The Prince Imperial, who was always desirous to be actively employed, was anxious to join Lieutenant Carey of the 98th, who was starting with six men of Bettington's Horse on a reconnoitering expedition. The Staff objected to his going, but he laughingly overruled their scruples and started.

Ten miles in advance of this place they reached a kraal some two miles from Inshallami Mountain, in the direct route to Inyoyani. Here they dismounted, unsaddled their horses, and off-saddled for an hour.

As they were in the act of resaddling their horses to return Lieutenant Carey suddenly exclaimed that he saw the black faces of the Zulus peering out between the maize stalks all round. The Prince, looking round said "I see them too."

All leaped upon their horses and rode off amidst a sudden volley of musketry from the Zulus, who, as soon as they saw them mounting, rushed forth on all sides from the maize.

Three hundred yards distant was a Donga, or deep cutting. Carey, who narrated the story to me, says that following two Bettington's Horse, he arrived safe across the Donga, and on looking behind him saw the Prince's riderless horse close upon him.

The Prince must have fallen off close to the kraal.

Two of Bettington's men were also killed.

To-night a large force of mounted men leave camp, and will endeavour to recover the body.

Great sorrow prevails in the camp, and the head-quarters are blamed for allowing the Prince to go out with so small a force. It was natural that he should like to go; but he ought to have been peremptorily stopped from running into unnecessary danger.

The spot where the Prince was killed lies within four miles of Wood's force, which is now encamped five miles on our left flank.

ISANDLANA, June 3.

At seven this morning General Marshall took two squadrons of Lancers and one of Dragoon Guards, and arriving at the kraal where the surprise took place, at nine o'clock, they found the body of the Prince lying in the cutting, stripped of his clothing save one crochet and a locket. He had seventeen assegai wounds in the body, and one through the left eye.

It seemed, as far as could be made out, that in attempting to mount his horse he had grasped the saddle flap, which tearing in his hands, threw him backwards. His horse esca

BILLIARD TABLES.

THE undoubted and established superiority of C. L. & Co.'s Billiard Tables is amply proved by the constant and increasing demand for them, showing that they are really the only tables now appreciated in India. This success is due to the steadfast efforts C. L. & Co. have always exerted to supply their constituents with really trustworthy and reliable articles at as moderate a price as is compatible with good workmanship and material. The generous and liberal support extended to C. L. & Co. for upwards of half a century, is sufficient proof that their endeavours to render satisfaction have been appreciated by a critical and discerning public.

While the superiority of C. L. & Co.'s Billiard Tables has been universally admitted in India, yet the difficulties and risks of transport have hitherto prevented their friends in Bombay from largely availing themselves of the undoubted advantages offered by C. L. & Co.

Now, however, C. L. & Co. beg to intimate to their patrons in the Western Presidency, that they have made arrangements which will enable them to offer their Billiard Tables at the same prices in Bombay as in Calcutta. A Branch Agency, under the management of Messrs. SOUNDY & Co., has been established at No. 22, Rampart Row, where Billiard Tables of C. Lazarus & Co.'s manufacture are arranged for sale; and while thanking the inconstituents for the patronage with which they have favoured their Firm, C. L. & Co. venture to express a hope that, with the increased facilities now offered, their manufactures will be as well known in Bombay as they are already in other parts of India.

BILLIARD CUSHIONS.

C. Lazarus & Co. always keep on hand a large stock of their new and improved COMBINATION EXPRESS Billiard Cushions which can be fitted to any table, the exact length and breadth of the slate-bed being the only information required.

Old Billiard Cushions, if the woodwork is in good condition, can be renewed on the new COMBINATION EXPRESS principle, thereby making an old table as good as new.

IMPORTANT NOTICE.

C. Lazarus & Co. guarantee the SAFE ARRIVAL of their Billiard Tables at any Station in India. Should any breakage occur in transit, C. L. & Co. agree to make good the loss without further charge.

BILLIARD LAMPS.

The six-light telescopic lamp, on the duplex principle, to burn kerosine oil, as adapted by C. L. & Co., is the best Billiard lamp ever introduced.

C. L. & Co. have always on hand a large assortment of Billiard, Pool and Pyramid Balls, in Ivory or "Patent Celluloid," Billiard Cloth, of the finest quality only, Cues, Tips, Chalks, Cement and every requisite for the Billiard Room.

GRIFFITHS' PATENT WHITE
OR
OXY-SULPHIDE OF ZINC PAINT,
MANUFACTURED BY
GRIFFITHS, FLETCHER, & BERDOE,
LIVERPOOL, LONDON, AND CHARLTON, (KENT).

Covers 125 per cent. more than Oxide Zinc.
Covers 100 per cent. more than White Lead.
It retains its Whiteness under all conditions.
A Red Heat will not destroy it.
Will never Blister.
Is Non-poisonous—Has no Smell.
Has no Chemical Action upon Metals.

The Patent Zinc White, or substitute for Lead, invented and patented by Mr. Thomas Griffiths, of Oxton, Liverpool, received the highest possible praise at the Meetings of "The Society of Arts and Manufactures," London, and "The Social Science Congress."

THE Manufacture of "GRIFFITHS' PATENT WHITE" formed the subject of a lecture at the Society of Arts in the Spring of 1877, and has been reported upon by the leading scientific Chemists, Paint Merchants, Decorators, &c., &c.; was brought before the International Congress of Hygiene, at Paris, in August 1878, by Professor Lutschaunig and Dr. Phipson; and in the same month before the British Association, in Dublin; in October, a paper was read upon it at the Social Science Congress in Cheltenham, by Dr. Bartlett; and it was the subject of a paper read during the session of 1878 of the Paris Academy of Science. At the Paris International Exhibition, 1878, the highest distinction which was conferred upon paints, viz.: The only Silver Medal, was awarded to it, and at the Sanitary Institute of Great Britain it obtained the Prize Medal. It has been most favourably reported on in the "Lancet," "Engineering," "Engineer," "Builder," "Architect," "Chemical News," "Sanitary Record," "Society of Arts Journal," "Scientific American," "Journal of Chemical Society," "Moniteur," "L'Exposition de Paris," "Lloyd's Official List," "New York Tribune," "New York Times," "Comptes-Rendus," of the French Academy of Science, &c., &c. Copies of any of the above reports can be had on application; also samples for trial.

So great has been the demand for it since its introduction, that the proprietors, who were producing about 25 TONS PER WEEK in Liverpool, have been compelled to purchase Extensive Works in London, where they can manufacture about 50 TONS PER WEEK. They have also had to secure sufficient room to increase the production to 200 tons weekly, making them the largest producers of White Pigment in Europe.

WHITE LEAD possesses only one good property, viz., "covering power," it is poisonous, soon loses its opacity, and turns yellow with Sewer and other Gases, and prejudicially affects Iron and other metals.

OXIDE ZINC has scarcely half the covering power of lead, but it is whiter and retains its colour.

GRIFFITHS' PATENT ZINC WHITE has all the good properties of both the above without any of their drawbacks, viz., it has double the body of Lead, or of Oxide Zinc, has the most brilliant whiteness, will never change colour even in sulphuretted hydrogen (which destroys lead) and does not lose its opacity by age. It is calcined at a red heat in its manufacture, hence is almost indestructible, and, of course, will stand any variation of climate. Its durability is such that it is admirably adapted for protecting Iron, Wooden or Cement Structures in any exposed situations, from the effects of the weather. Will never blister with the hottest sun.

PROFESSOR PHIPSON says: "It is one of the most ingenious and useful discoveries of modern times."

GRIFFITHS' PATENT NEW ZINC WHITE is at present used by the English, German and other Governments as well as large private firms.

Full reports from the highest scientific authorities in the kingdom, gratis, on applying to any Agents of the "Silicate Paint Company," Liverpool, London, or Charlton. The following are a few who have reported on this new pigment:—

PROFESSOR BARFF, M.A., Lecturer on Paint and Colours to Society of Arts, Chemist Royal Academy, &c.
JOHNSON & SONS, Assayers to Bank of England, Royal Mint, Council of India, &c.
PROFESSOR LUTSCHAUNIG, Liverpool Assay Office.
